

Charges Board Assurance Statement 2021/22

01 February 2021

1. Introduction

The Board and Audit Risk and Assurance Committee of Affinity Water Limited (the “Company”) have overseen the preparation of the Affinity Water Charges Scheme 2021/22 (the “Charges Scheme”). Because of the timing of publication of the Charges Scheme in relation to scheduled meetings of the Board, the Board established a Board Charges Committee, which includes executive and independent non-executive directors to act on behalf of the full Board to review the preparation of the Charges 2021/22 and the assurance provided by internal and external assurance providers.

The Board Charges Committee on behalf of the Board has:

- Reviewed the compliance with the requirements published in Information Notice 20/07 on 4 November, setting out Ofwat’s expectations for charges for 2021/22;
- Considered the compliance with the requirements of Ofwat’s Charges Scheme Rules (re-issued 27 March 2020);
- Considered the actions undertaken by management to prepare our Charges Scheme to meet these requirements;
- Reviewed the processes established to provide assurance that the Company complies with its legal obligations relating to the Charges Scheme and assurance reports provided by internal and external assurance providers;
- Assessed the effects the charges will have on customers’ bills for a range of different customer types and noted that there are instances where charge increases will exceed 5% (included in Appendix 1 of this paper);
- Considered the impact assessments and handling strategies developed by management where bill increases for particular customer types exceed 5%;
- Approved the Board Assurance Statement set out in Section 2 below; and
- Considered the compliance with each of Ofwat’s Charging Rules as set out in Appendix 3 (Compliance with Charging Scheme Rules).

2. Board Assurance Statement

The Board of Affinity Water Limited, through its Board Charges Committee, having made due enquiry of management and having considered reports from internal and external assurance providers confirms, to the best of its knowledge, that:

- (a) The Company complies with its legal obligations relating to the charges set out in its charges scheme;
- (b) It has assessed the effects of the new charges on customers' bills for a range of different customer types, and approves the impact assessments and handling strategies developed in instances where bill increases for particular customer types exceed 5%;
- (c) The Company has appropriate systems and processes in place to make sure that the information contained in the charges scheme, and the additional information covered by this annex is accurate; and
- (d) The Company has consulted the Consumer Council for Water (CCWater) in a timely and effective manner on its Charges Scheme.

Appendix 1 Schedule of Charges

Affinity Water Central Region - Household Charges

Metered Charges

	2021/22	2020/21
Household Fixed Charge (£/year)	28.20	26.40
Household Volumetric Charge (£ per m3)	1.0502	0.9848
Household Watersure Maximum Charge (£/year)	169.79	161.14
Household LIFT Tariff Maximum Charge (40% discount) (£/year)	103.70	97.90
Household LIFT Tariff Maximum Charge (60% discount) (£/year)	69.20	na
Household Metered Field Supply Fixed Charge (£/year)	28.20	26.40

Non-metered Charges

	2021/22	2020/21
Household Non-metered RV Fixed Charge (£/year)	46.90	43.50
Household Rateable Value Charge (£ per £RV) - Colne Area	0.6070	0.5626
Household Rateable Value Charge (£ per £RV) - Lee Area	0.7458	0.6913
Household Rateable Value Charge (£ per £RV) - Rickmansworth Area	0.5920	0.5487
Household Rateable Value Charge (£ per £RV) - North Surrey Area	0.6235	0.5779
Household Non-metered Swimming Pool, Sprinkler or Garden Pond Charge (£/year)	77.70	72.90
Household Non-metered Leisure Pool or Hot Tub Charge (£/year)	27.30	25.60
Household Non-metered Field Supply Fixed Charge (£/year)	28.20	26.40

Assessed Charges

	2021/22	2020/21
Household Assessed Charge - 1 occupier (£/year)	96.50	90.40
Household Assessed Charge - 2 occupiers (£/year)	149.00	139.70
Household Assessed Charge - 3 occupiers (£/year)	205.70	192.80
Household Assessed Charge - 4 or more occupiers (£/year)	262.40	246.00

Affinity Water East Region - Household Charges

Metered Charges

	2021/22	2020/21
Household Fixed Charge (£/year)	28.20	26.40
Household Volumetric Charge (£ per m3)	1.7316	1.6238
Household Watersure Maximum Charge (£/year)	181.83	170.51
Household LIFT Tariff Maximum Charge (40% discount) (£/year)	103.70	97.90
Household LIFT Tariff Maximum Charge (60% discount) (£/year)	69.20	na

Non-metered Charges

	2021/22	2020/21
Household Non-metered RV Fixed Charge (£/year)	46.90	43.50
Household Rateable Value Charge (£ per £RV) - Tendring Hundred Area	1.0956	1.0155
Household Non-metered Hosepipe Charge (£/year)	46.80	43.80

Assessed Charges

	2021/22	2020/21
Household Assessed Charge - 1 occupier (£/year)	100.90	94.60
Household Assessed Charge - 2 occupiers (£/year)	163.30	153.10
Household Assessed Charge - 3 occupiers (£/year)	227.30	213.10
Household Assessed Charge - 4 or more occupiers (£/year)	320.80	300.80

Affinity Water Southeast Region - Household Charges

Metered Charges

	2021/22	2020/21
Household Fixed Charge (£/year)	28.20	26.40
Household Volumetric Charge (£ per m3)	1.8412	1.7266
Household Watersure Maximum Charge (£/year)	206.21	193.37
Household LIFT Tariff Maximum Charge (40% discount) (£/year)	103.70	97.90
Household LIFT Tariff Maximum Charge (60% discount) (£/year)	69.20	na

Non-metered Charges

	2021/22	2020/21
Household Non-metered RV Fixed Charge (£/year)	46.90	43.50
Household Rateable Value Charge (£ per £RV) - Folkestone & Dover Area	1.9027	1.7636
Household Non-metered Sprinkler Charge (£/year)	77.70	72.90
Household Non-metered Tap Charge (£/year)	25.80	24.20

Assessed Charges

	2021/22	2020/21
Household Assessed Charge - 1 occupier (£/year)	147.90	138.60
Household Assessed Charge - 2 occupiers (£/year)	239.90	225.00
Household Assessed Charge - 3 occupiers (£/year)	339.40	318.20
Household Assessed Charge - 4 or more occupiers (£/year)	438.80	411.40

Affinity Water Other Household Charges - All Regions

Metered Fixed Charges for larger sized meters

	2021/22	2020/21
Household Fixed Charge 12-15mm Meter (£/year)	28.20	26.40
Household Fixed Charge 19-21mm Meter (£/year)	40.80	38.28
Household Fixed Charge 25mm Meter (£/year)	42.84	40.20
Household Fixed Charge 30-32mm Meter (£/year)	131.52	123.36
Household Fixed Charge 38-40mm Meter (£/year)	155.28	145.56
Household Fixed Charge 50mm Meter (£/year)	188.52	176.76
Household Fixed Charge 65mm Meter (£/year)	306.96	287.88
Household Fixed Charge 75-80mm Meter (£/year)	374.76	351.48
Household Fixed Charge 100mm Meter (£/year)	441.60	414.12
Household Fixed Charge 150mm Meter (£/year)	495.84	465.00
Household Fixed Charge 200mm Meter (£/year)	495.84	465.00
Fixed Standby Charge (£/year)	19345.56	18141.00

Metered Charges (no longer offered to new customers)

	2021/22	2020/21
Household Volumetric Charge (D21, D22, D23, D28) (Central Area) (£ per m3)	0.9898	0.9282
Household Volumetric Charge (D2C) (Central Area) (£ per m3)	1.0502	0.9848
Household Volumetric Charge (D04, D05, D06, D24, D25 and D26) (Central Area) (£ per m3)	0.6113	0.5732
Household Volumetric Charge (D57) (East Area) (£ per m3)	1.7316	1.5254
Household Volumetric Charge (D71) (Southeast Area) (£ per m3)	1.2526	1.1746
Household Volumetric Charge (D72) (Southeast Area) (£ per m3)	1.6954	1.5898

Assessed Charges - Employee Based (no longer offered to new customers)

	2021/22	2020/21
Household Assessed Fixed Charge (Employee based) (£/year)	28.20	26.40
Household Assessed Volumetric Charge (Central Area Employee based) (£ per m3)	1.0502	0.9848
Household Assessed Volumetric Charge (Southeast Area Employee based) (£ per m3)	1.8412	1.7266

Appendix 2

Typical Water Bill Changes 2021/22

Typical Customer	2020-21 Bill	2021-22 Bill	Variance (%)
Average Household Measured Customer (Central Region)	142.41	151.91	6.7%
Average Household Measured Customer (East Region)	159.55	170.19	6.7%
Average Household Measured Customer (Southeast Region)	195.61	208.64	6.7%
Average Household Unmeasured Customer (Rickmansworth Region)	179.58	193.72	7.9%
Average Household Unmeasured Customer (Colne Region)	199.90	215.65	7.9%
Average Household Unmeasured Customer (Lee Region)	217.02	234.10	7.9%
Average Household Unmeasured Customer (North Surrey Region)	187.40	202.15	7.9%
Average Household Unmeasured Customer (East Region)	230.35	248.49	7.9%
Social tariff Central and East Region	97.90	103.70	5.9%
Social tariff Southeast Region	97.90	103.70	5.9%
Household Measured Customer Low consumption 65m ³ /year Central Region	90.41	96.46	6.7%
Household Measured Customer Low consumption 42m ³ /year East Region	94.60	100.93	6.7%
Household Measured Customer Low consumption 65m ³ /year Southeast Region	138.63	147.88	6.7%
Household Measured Customer High consumption 300m ³ /year Central Region	321.84	343.26	6.7%
Household Measured Customer High consumption 225m ³ /year East Region	391.76	417.81	6.7%
Household Measured Customer High consumption 300m ³ /year Southeast Region	544.38	580.56	6.6%

Household Assessed 2 occupiers (Central Region)	139.70	149.00	6.7%
Household Assessed 3 occupiers (Central Region)	192.80	205.70	6.7%
Household Assessed 4 or more occupiers (Central Region)	246.00	262.40	6.7%
Household Assessed 1 occupier (East Region)	94.60	100.90	6.7%
Household Assessed 2 occupiers (East Region)	153.10	163.30	6.7%
Household Assessed 3 occupiers (East Region)	213.10	227.30	6.7%
Household Assessed 4 or more occupiers (East Region)	300.80	320.80	6.6%
Household Assessed 1 occupier (Southeast Region)	138.60	147.90	6.7%
Household Assessed 2 occupiers (Southeast Region)	225.00	239.90	6.6%
Household Assessed 3 occupiers (Southeast Region)	318.20	339.40	6.7%
Household Assessed 4 or more occupiers (Southeast Region)	411.40	438.80	6.7%
Watersure customer (Central & Saffron Walden Region)	161.14	169.79	5.4%
Watersure customer (Southeast Region)	193.37	206.21	6.6%
Watersure customer (East Region)	170.51	181.83	6.6%
Average Measured Non-contestable Business Customer Central Region (15mm meter)	506.98	540.70	6.7%
Average Measured Non-contestable Business Customer Southeast Region (15mm meter)	691.14	737.06	6.6%
Average Measured Non-contestable Business Customer East Region (15mm meter)	518.41	552.87	6.6%

Appendix 3: Compliance with Charges Scheme Rules

In compliance with Ofwat's Charges Scheme Rules re-issued on 27 March 2020, we provide detailed information below on how we ensure compliance with each relevant charging rule.

Rule No.	Charges Scheme Rule	Our Compliance
Rules 1 to 6	Introduction and Interpretation	Not applicable
Consumer Council for Water		
Rule 7	Before making a charges scheme a relevant undertaker must consult the Consumer Council for Water about its proposed scheme in a timely and effective manner.	<p>We provided CCWater with average bill information during September at the time that we published indicative wholesale charges, to give early indications of the tariff changes for 2021/22 and any implications for the forthcoming charges scheme.</p> <p>We met CCWater on 8th September to provide forecast bill information and to explain the drivers of bill increases. We consulted with CCWater on 28 October on our handling strategy and met CCW members (as part of our CCG) again in 10 November on the same topic. Ahead of finalising tariff proposals, we met with CCWater on 8 December to update them on charges, impact assessments and our handling strategy and to make arrangements for consultation on our draft charges scheme. Following this meeting, CCW requested further information on bill drivers, that we provided. We met again on 6 January to review our final charges.</p> <p>Regarding the charges scheme, our process each year is to begin with the previous year's charges scheme, upon which we would have consulted CCWater and to consult on any proposed changes from one year to the next.</p>
Rule 8	Undertakers should carry out a proportionate impact assessment whenever the nominal value of bills for a given customer type (assuming a constant level of consumption) is expected to increase by more than 5% from the previous year.	We have undertaken a proportionate impact assessment as the nominal value of bills (assuming a constant level of consumption) is expected to increase by more than 5% from the previous year. Further

Rule No.	Charges Scheme Rule	Our Compliance
		information is provided in Appendix 2 and in our separate Statement of Significant Changes publication
Publication		
Rule 9	Charges schemes must be published no later than the first working day of the February immediately preceding the Charging Year in relation to which they have effect.	Our Charges Scheme will be published on our website by 1 February 2021.
Rule 10	Charges schemes must be published on a relevant undertaker's website and in such other manner as the undertaker considers appropriate for the purpose of bringing it to the attention of persons likely to be affected by it.	Our Charges Scheme will be published on our website by 1 February 2021 and the final version shared with CCWater.
Rule 11	Where a relevant undertaker has published or fixed standard charges otherwise than under a charges scheme for any services provided by that undertaker, charges schemes must state how customers may obtain a copy of such charges and, if applicable, where on a relevant undertaker's website those charges may be found.	Not applicable.
Principles for determining the amounts of charges		
Rule 12	Consistent principles and approaches must be applied to the calculation of charges for different classes of customers.	<p>We promote use of consistent principles and methodologies for setting charges by following a charges setting procedure that includes for example:</p> <ul style="list-style-type: none"> • details of relevant internal charging policies; and • how we operate charging methodologies, such as the tariff differential. <p>By adhering to the same procedure, we promote consistency in our approach to charges between different classes of customer and also consistency in charges setting year on year.</p>
Rule 13	Charging structures must reflect the long run costs associated with providing the relevant service.	<p>The majority of our end user tariffs consist of two-part tariffs with a fixed annual charge and a volumetric rate. Our tariffs are differentiated geographically, reflecting the creation of Affinity Water from 3 predecessor companies. Unmeasured charges based on rateable value are further differentiated geographically within our Central Region reflecting the creation of Three Valleys Water from 4 predecessor companies.</p> <p>We set the metered fixed annual charge to reflect the</p>

Rule No.	Charges Scheme Rule	Our Compliance
		annualised costs of provision and maintenance of the meter asset and meter space over its asset life, so that measured customers' fixed charges reflect the use of assets that are local to and used only by them.
Rule 14	Charges for services provided to domestic premises must be fixed so that the average difference between metered charges and unmetered charges only reflects any differences in the costs of, and the additional benefits of, the provision of one service relative to the other.	A significant number of household customers remain on unmeasured charging. We take measures to ensure that unmeasured tariffs on average are reflective of the volumes of water used by unmeasured customers in aggregate, principally through our application of the tariff differential rule. This approach also takes account of the additional costs and benefits of the provision of metered services relative to unmetered. In this way we achieve cost reflective balance between measured and unmeasured charges.
Rule 15	Differences between charges for services provided to larger users of water and charges for services provided to smaller users of water must only be based on cost differences associated with differential use of network assets, differential peaking characteristics, different service levels and/or different service measurement accuracy.	We confirm that we have based our mid-user and large-user wholesale tariffs that are available to water supply licensees, based on our assessments of the cost differences associated with the avoided use of network assets by these retailers' customers. By doing so, our tariffs for household customers reflect the cost differences of supplies to such customers.
Rule 16	Where cost differences associated with differential peaking characteristics are used as a basis for differences between charges for services provided to larger users of water and charges for services provided to smaller users of water, the charges fixed on that basis must be structured on an appropriate peak demand basis.	We do not have different tariffs for services provided at times of peak demand for water.
Rule 17	Rule not applicable to Affinity Water Limited	Not applicable
Assessed charges		
Rule 18	<p>Charges schemes must allow a customer to choose to pay an assessed charge determined in accordance with this rule in the specified circumstances:</p> <p>(a) The type and amount(s) of an assessed charge must be determined in accordance with the following principles:</p> <p>(i) assessed charges should, as closely as practicable, reflect the metered charges</p>	<p>Our Charges Scheme provides that a customer may choose to pay an assessed charge where we are unable to install a meter in these specified circumstances.</p> <p>The assessed charge is determined by the number of people living in the premises to reflect the metered charges that would apply in relation to the volume of</p>

Rule No.	Charges Scheme Rule	Our Compliance
	<p>that would apply in relation to the volume of water that is likely to be supplied; and</p> <p>(ii) the amount of an assessed charge payable by an individual who is the sole occupier of domestic premises (a single occupier assessed charge) should reflect the volume of water that is likely to be supplied to domestic premises occupied by one individual in the relevant area.</p> <p>(b) The specified circumstances for the purposes of this rule are where a water undertaker has received a measured charges notice in accordance with section 144A of the Water Industry Act 1991 but was not obliged to give effect to it because:</p> <p>(i) it is not reasonably practicable to fix charges in respect of the premises by reference to the volume of water supplied; or</p> <p>(ii) to do so would involve the incurring by the undertaker of unreasonable expense.</p>	<p>water that is likely to be supplied.</p> <p>See Sections 6.3.1 and 7.3 of our Charges Scheme.</p>
Unmetered charges		
Rule 19	<p>Charges schemes that include any unmetered charges must clearly state the basis on which those charges are fixed or determined and, in the case of rateable value charges, state:</p> <p>(a) which rating valuation list charges are fixed or determined by reference to; and</p> <p>(b) if the undertaker uses a different value or other amount to that specified in such a list, the methodology or other basis on which that different value or other amount is calculated.</p>	<p>Our Charges Scheme sets out the basis on which we charge a customer using a rateable value charge.</p> <p>The rateable value of the premises is determined by reference to the value shown in the rating valuation list 31 March 1990 or a notional value assigned by us. We assign notional rateable values having regard to the rateable values of similar premises appearing in the rating list, taking account of customer representations.</p> <p>See Section 7.2 of our Charges Scheme.</p>
Wastewater charges, Trade effluent		
Rules 20 to 22	Rules not applicable to Affinity Water Limited	Not applicable
Social tariffs, concessionary drainage		
Rule 23	<p>Charges schemes must state:</p> <p>(a) whether or not undertakers have decided to include in the charges scheme:</p>	<p>Our Charges Scheme includes a concessionary tariff pursuant to this provision and sets out eligibility and how eligible customers can apply.</p>

Rule No.	Charges Scheme Rule	Our Compliance
	<ul style="list-style-type: none"> (i) [Rule not applicable to Affinity Water Limited] (ii) provision designed to reduce charges for individuals who would have difficulty paying in full (having had regard to any guidance issued by the Minister under section 44 of the Flood and Water Management Act 2010); and (b) if any such provision is included, how eligible customers can apply for such reduced charges. 	See Section 8 of our Charges Scheme.
Times and methods of payment		
Rule 24	Charges schemes must include provisions giving customers a reasonable choice as to the times and methods of payment of the charges fixed by the scheme.	<p>Our Charges Scheme sets out the methods and payment terms and times of payment.</p> <p>See Section 9 of our Charges Scheme.</p>
New appointees		
Rule 25	Rule not applicable to Affinity Water Limited	Not applicable
Infrastructure charges (English undertakers)		
Rule 26	Each relevant undertaker whose area is wholly or mainly in England must fix Infrastructure Charges in a charges scheme.	<p>Our Charges Scheme fixes the infrastructure charges payable when new premises are connected to our water supply system.</p> <p>See Section 11 of our Charges Scheme.</p>
Rule 27	<p>Infrastructure Charges must be determined in accordance with the principle that the charges should reflect:</p> <ul style="list-style-type: none"> (a) fairness and affordability; (b) environmental protection; (c) stability and predictability; and (d) transparency and customer-focused service. 	<p>Infrastructure Charges for 2021/22 will be levied in the same way as Infrastructure Charges have been levied in 2020/21.</p> <p>Condition C in Affinity Water's Instrument of Appointment ceased to have effect on 1 April 2018 and there is therefore no longer a cap on such charges. We set our infrastructure charge having regard to our actual expenditures on network reinforcement activity over a five year period, (where network reinforcement is a consequence of new connections)</p> <p>In 2020/21 we introduced a lower infrastructure charge for new dwellings for which a water efficiency target of</p>

Rule No.	Charges Scheme Rule	Our Compliance
		<p>110 litres per person per day applies under Building Regulations, to incentivise developers in this regard.</p> <p>For these reasons, we consider our overall approach meets the principles set out in this Rule.</p>
Rule 28	<p>Infrastructure Charges must be determined in accordance with the principle that the amount of such charges will over each period of five consecutive Charging Years ending on 31 March 2023 and, thereafter, on 31 March in each subsequent year cover the costs of Network Reinforcement that the relevant undertaker reasonably incurs, less any other amounts that the relevant undertaker receives for Network Reinforcement.</p>	<p>We consider it appropriate to set infrastructure charges for 2021/22 at a level such that the amount recoverable by way of infrastructure charges for the five-year period ending 31 March 2026 will cover the costs of Network Reinforcement.</p> <p>We will keep the amount of water infrastructure charges under review to continue to ensure such charges are set consistently with this principle.</p>
Rule 29	<p>Charges schemes must include a clear methodology explaining how Infrastructure Charges have been calculated.</p>	<p>The Charges Scheme adopts the same methodology for calculating infrastructure charges payable as specified by Condition C.</p>
Rule 30	<p>For the avoidance of doubt, Infrastructure Charges must not relate to the costs of reinforcing, upgrading or otherwise modifying existing network infrastructure in order to address pre-existing deficiencies in capacity or in capability unrelated</p> <ul style="list-style-type: none"> (a) to the provision of a new water main or public sewer pursuant to an agreement with, or a duty owed under the Water Industry Act 1991 to, a person other than a relevant undertaker (including, but not limited to, the provision of a new water main or public sewer pursuant to a requisition under sections 41(1) or 98(1), a section 66D agreement or a section 117E agreement); (b) to the adoption of infrastructure under a section 51A or 104 agreement; or (c) to connections described in section 146(2) of the Water Industry Act 1991. 	<p>This is reflected in Section 11.1 of our Charges Scheme</p>
Rule 31	<p>Infrastructure Charges may be set as a fixed charge per connection or calculated in accordance with a formula. As long as the difference between amounts is cost-reflective, the amounts of Infrastructure Charges may vary to reflect different circumstances and, in particular, may be different for different geographical areas.</p>	<p>The amount of Infrastructure Charges payable does not vary in different geographical areas.</p>

Rule No.	Charges Scheme Rule	Our Compliance
Rule 32	<p>In making charges schemes, each relevant undertaker must ensure that:</p> <ul style="list-style-type: none"> (a) Charges schemes clearly set out how Infrastructure Charges have been calculated; (b) The amount of Infrastructure Charges applied in respect of the modification or redevelopment of existing buildings or premises is determined in accordance with the principle that the amount must take due account of any previous usage in the 5 years before the modification or redevelopment began (including supplies of water that were not for domestic purposes and drainage that was not for domestic sewerage purposes) associated with the buildings and/or premises to which the charges are to be applied and be discounted accordingly; and (c) Charges schemes clearly explain the methodology to be applied for determining a discount to reflect previous usage. 	<p>We have continued to use the same methodology for the calculation of infrastructure charges as is currently set out in Condition C. This includes provisions to take account of previous usage in the five years before the redevelopment occurred and a methodology for determining how such previous usage is reflected.</p> <p>See Sections 11.4 to 11.6 of our Charges Scheme.</p>
Rule 33	<p>Rules 26 to 32 above do not apply to:</p> <ul style="list-style-type: none"> (a) new appointees; or (b) any charges scheme that has effect in relation to a period ending before 1 April 2018. 	Noted.

Annex: Information requirements		
A1	Each undertaker should provide to the Water Services Regulation Authority an assurance statement from its Board of Directors and publish its statement no later than the time of publication of the charges schemes confirming that:	Our Board has provided this statement of assurance on page 3 of this publication.
	(a) the company complies with its legal obligations relating to the charges set out in its charges schemes;	<p>Our end user charges 2021/22 have been calculated in compliance with the wholesale and retail price controls set at PR19.</p> <p>In so doing, we have taken into account the requirements of Condition E of our Instrument of Appointment (Prohibition on Undue Discrimination and Undue Preference and Information on charges).</p>

Annex: Information requirements		
		<p>These statements are supported by the systems and processes and associated assurance described against component (c) of our assurance statement below.</p> <p>It should be noted however it is not possible to provide absolute assurance that all end user charges are cost-reflective given the historical geographical cross-subsidisation of tariffs for unmetered water supplies.</p> <p>This statement itself sets out how we comply with Ofwat's Charges Scheme Rules.</p> <p>Our Legal Team has reviewed the Charges Scheme against legal and regulatory requirements for charges schemes.</p>
	<p>(b) the Board has assessed the effects of the new charges on customers' bills for a range of different customer types, and approves the impact assessments and handling strategies developed in instances where bill increases for particular customer types exceed 5%;</p>	<p>The Board has assessed the effects of the new charges on customers' bills for over 30 types of typical customer, differentiated according to factors including the following:</p> <ul style="list-style-type: none"> • Geographical location • Charging method - measured / unmeasured / assessed • Consumption band - average, low and high consumption • Watersure and Social Tariff customers <p>A summary of the expected bill changes is set out in Appendix 2.</p> <p>Based on this analysis, we confirm that we expect there to be water bill increases of more than 5% from the previous year for any given customer type, assuming a constant level of consumption.</p> <p>During the year, the Board received information about Charges Scheme Charges as well as on the impact assessments and the handling strategy developed by</p>

Annex: Information requirements		
		<p>management. Having given due consideration and made enquiries of management, it has approved the impact assessments and handling strategies developed.</p> <p>We published separately on 11 January 2021 a Statement of Significant Changes to Scheme Charges.</p>
	<p>(c) the company has appropriate systems and processes in place to make sure that the information contained in the charges scheme, and the additional information covered by this annex is accurate; and</p>	<p>We have an established, robust system for managing all data required to provide end customer charges. Our financial models have been developed by our Senior Regulatory Economist and assessed, reviewed and challenged to ensure that they meet requirements and are compliant with revenue controls which form the basis of these charges.</p> <p>Atkins Limited has reported on the processes that have been used to derive the base customer information and charge multipliers that have been used to compute wholesale charges. Atkins has confirmed that the Company has used the most reliable information available and has made reasonable assumptions and appropriate use of recognised third party assessments of likely economic developments in the face of the Covid-19 pandemic. Atkins has also confirmed that the basis for forecasting both household and non-household consumption is based on reasonable estimates and assumptions.</p> <p>Our assurance provider, Frontier Economics has reported on the suitability of our charges setting model, our revenue calculations, our computations of the final determination and our performance against the wholesale revenue limit. Frontier Economics has confirmed that the proposed wholesale and retail tariffs are compliant with Ofwat's Final Determinations and Charging Rules.</p> <p>Frontier Economics has also confirmed that the mechanics in the tariff models with which the 2021/22 charges are calculated work as intended and the overall approach and detailed methodology applied to setting charges for 2021/22 is justifiable and</p>

Annex: Information requirements		
		<p>reasonable.</p> <p>Our Senior Regulatory Economist & Director of Regulation & Strategy have reported on the compliance of the Company's End Customer charges with Ofwat's charging principles and guidelines and the engagement undertaken with the Consumer Council for Water.</p>
	<p>(d) the company has consulted the Consumer Council for Water (CCWater) in a timely and effective manner on its charges schemes.</p>	<p>We provided CCWater with average bill information during September at the time that we published indicative wholesale charges, to give early indications of the tariff changes for 2021/22 and any implications for the forthcoming charges scheme.</p> <p>We met CCWater on 8th September to provide forecast bill information and to explain the drivers of bill increases. We consulted with CCWater on 28 October on our handling strategy and met CCW members (as part of our CCG) again in 10 November on the same topic. Ahead of finalising tariff proposals, we met with CCWater on 8 December to update them on charges, impact assessments and our handling strategy and to make arrangements for consultation on our draft charges scheme. Following this meeting, CCW requested further information on bill drivers, that we provided. We circulated our draft charges scheme to CCW in December for consultation and comment and met again on 6 January to review our final charges.</p> <p>Regarding the charges scheme, our process each year is to begin with the previous year's charges scheme, upon which we would have consulted CCWater and to consult on any proposed changes from one year to the next.</p>
A2	<p>With the exception of Cholderton and District Water and new appointees, each undertaker should provide to the Water Services Regulation Authority a statement setting out any significant changes anticipated by the undertaker, and publish the statement, at least three weeks before the publication of the charges schemes. The statement should include the following.</p>	<p>We published separately on 11 January 2021 a Statement of Significant Changes to Scheme Charges setting out the information required under this rule.</p>

Annex: Information requirements		
	<p>(a) Confirmation of whether the undertaker is expecting there to be any bill increases of more than 5% from the previous year (for a given customer type assuming a constant level of consumption) and, if such increases are expected:</p> <ul style="list-style-type: none"> (i) what size increase is expected; (ii) which customer types are likely to be affected; and (iii) the handling strategies adopted by the company or why the company considered that no handling strategies are required. <p>(b) Details of any significant changes in charging policy by the company from the previous year.</p>
