Improving our service to you

Please can you spare a minute of your time to answer three questions in our brief questionnaire and help us improve our service to you and your community. Visit

www.tellaffinity.co.uk/newpipes

we really value and appreciate your participation.

Customer care advice

Your water may have a cloudy appearance at first because of air in the water system, this should disappear after a short time and is totally harmless. The aeration generally clears within one or two hours but if it goes on for longer, or you are concerned, please contact us and we can advise you further.
