

New Wholesale Tariff Codes – Affinity Water Wholesale

We have identified a number of SPIDs on tariffs that include a Large User Surcharge which is leading to incorrect charges being applied for premises which expect to have their charges aggregated across a number of SPIDs. This has also affected monthly tariffs in which the lower volumetric charge expected has not been applied to the aggregated properties. Affinity Water has introduced 9 new tariffs suffixed with an 'A' which will act as an aggregated tariff to ensure all Retailers are charged accordingly. These new tariffs are effective as of the 1/4/17.

The rates of the new CMOS tariffs do not affect our previously published Wholesale Tariff Charges document. If you believe you have any aggregated customers affected by this please do inform us of those SPIDs and we can make corrections, if required.
